TO THE US DEPT. OF JUSTICE and all States opposed to the arrived  
settlement:

Let the business of running a good business be left to the good  
enterprenuers of our industries. It is time to let Microsoft to get back  
to what the public wants it to provide them: good products and good service  
at prices public will want to pay for. Stop running the competition using  
the courts legal system. This country needs more enterprising companies  
that will do good for our economy and provide more jobs to our citizenry.  
Stop wasting our tax dollars and microsoft resources in courts.

e.chin
